Assignment:

- Create an application in Android which will have 3 Radio Button named as Red, Green and Blue. They will be added horizontally and will share equal space. When we select, any Radio Button the background colour of the application will change to respective colour. Below Radio Buttons we will have two buttons in vertical orientation named as ""Google"" and ""Yahoo"". Below Buttons we will have single WebView. When we click on Google button, the www.google.com web page will be loaded into the WebView and same applies to yahoo.com button.
- Create android application which will listen for Incoming SMS message using android Broadcast Manager. On receiving SMS, it will show up that message using Toast."
